### **CIBC invests in Building a Better**

The Norfolk General Hospital Foundation received a substantial boost from CIBC. Julie Powell Director of Development NGHF was all smiles the morning of February 6 as CIBC representatives delivered a \$50,000 donation in support of the Building a Better Hospital Campaign.

CIBC funds projects with a focus on Kids, Cures and Community. In Norfolk, they recognize the need to support early detection of diseases such as cancer. The NGH Surgical Day Care Unit (SDC) performs over 3,000 endoscopies each year – a game changing diagnostic procedure that is increasingly in demand and in need of a completely new space. "The Branch relationship to the Hospital is critical. I am so pleased that this donation aligns with CIBC values" explained Meaghan Bowler General Manager "People rely on the services that NGH provides. The hospital helps so many."

A grateful Julie Powell acknowledged the donation stating "We're very excited about this support from CIBC. It will assist us in the building of the new SDC Unit. This \$13 million project also calls for us to renovate and revitalize our Labour & Delivery Unit and a Minimally Invasive Operating Room. The funding for our improvements must come from the community and with this generous contribution CIBC has demonstrated its commitment to better local health care for everyone."
