Foundation to Foundation

The Norfolk General Hospital Foundation received a surprise donation from Enterprise Holdings Foundation on Thursday December 21. Jennifer White, Foundation Director accepted a \$1500 donation from Lindsay Bleach, Enterprise Account Supervisor Insurance Replacement Division. The donation will go toward the Foundation's Christmas Campaign which will purchase over \$65,000 worth of vital hospital equipment including two Electrocardiogram (ECG) machines, a portable Bronchoscope, a Glidescope, four Crash Carts and a Syringe Infusion Pump.

Enterprise Holdings Foundation put aside about \$150,000 this year to give away to organizations and charities. It's up to their staff to decide where the money should go by reaching out to their community insurance partners.

"Norfolk Mutual Insurance already does a lot of work with the NGH Foundation. We thought it would be a nice gift to piggyback their efforts" stated Bleach, "We have \$1500 this year. Hopefully we will have a little bit more next year."

"We are so pleased with Enterprise Holdings Foundation's surprise and generous donation during the holiday Season. How wonderful the chain of partnerships; our Foundation with Norfolk Mutual, Norfolk Mutual with Enterprise. These connections are so important to funding health care close to home" said White as she accepted the gift from Enterprise.

Enterprise Holdings Foundation is the company's private foundation established in 1982 to give back to the communities where customers and employees live and work. Since then, the Enterprise Holdings Foundation has contributed more than \$302.5 million to thousands of local nonprofits focused on community improvement, education and environmental stewardship.
