

Diagnostic Imaging in HNHB LHIN: Quarterly CT Wait Time as of May 2017

Notes/Definitions:

- Data shown are for adult, non-timed scans only (waits for specified procedure date appointments for the purpose of disease surveillance are excluded) unless specified.
- Individual wait times will vary depending on type of scan, anatomical location, and whether special supports are required.

- **CT:** computed tomography

- **Wait time:** measured from the order received at booking clerical office date to the date the scan is performed

- **90th Percentile Wait Time:** 90% of patients waited less than or equal to this number of days between the order received date and complete date

- **HNHB LHIN:** Hamilton Niagara Haldimand Brant Local Health Integration Network

Specialty Resources within the HNHB LHIN:

- Cardiac CT services are located at HHSC General Hospital site, NHS St. Catharines site and SJHH Charlton Campus site.

Provincial Access Targets for MRI Scans (Adults):

Priority 2 (2 days), Priority 3 (2-10 Days), Priority 4 (28 Days)
